In Army's Home for Scamen.

One morning a letter was received stating we had a thief in the Home who had run away from one of the mear Republics. The letter was carefully perused, and after much thought the Caplain said to me, "I think I know the man. I have been trying to help thin." He was invited into the Officers' private room and spoken to. After very straight talking, he dropped his head, and the Captain said: "Come on, now, let me hook at your watch"; and getting it into his hands he looked into the culpit's face and continued: "This is not yours; this belongs to Mr. —." The man confessed that the watch was stolen. The money and other articles he had taken were also given up. Then he was spoken to about his wrongdoing and its consequences, and gave, evidence of repentance. "O Captain," he exclaimed, "It is all through beating on horses. Do give me will you, please?" The Officer prayed with the man, in whose done.

The day following, one of the Consula called at the Home in search of this very man. After hearing the way he had been dealt with, and learning that the watch was in our possession, and that he had promised to refund the stolen money, the Consult complimented the Captain upon what he called a "good streke of business."—All the World.

At the corner of East Third and Davis streets. Portland, Ore, there is an unpretentious building, known as The Salvation Army Industrial Home. Capitain Samuel Bradley, who has a quarter of a country's carvice to his reedit, is the Manager. Within this building a world of good is done and little le ever known or said about it.

There recently came to the Home Frenchman who, not only were There recently came to the Home Representant who, not only was a scholar in one line, but was a line institute of no mean ability. and, like the French linguist, proved his worth.

A son of a railroad president called at the home one evening and asked for lodging. When questioned as to his profession or trade, he said he was a civil engineer, and too much money and champagne were his downfall. He begged to be allowed the privilege of remaining until he found employment. He soon obtained work in his chosen profession, and finally went to China, where he holds an important position in the engineering corps of a railroad.

Another case where wine caused the downfall of a hilliant young man was that of a Californian who, rather than disgrace his family and friends, came here and found a haven with Captain Bradley. Wild and reckless and having a disregard for the things which tend toward decency, he led, a life of dissipation, which finally ended in his seeing the folly of his ways and settling to a life of respectability. His former employer, hearing of the reformation of the young man, sent for him, and to-day he holds a place of trust, attributing his change of life to the kindly influence of the Industrial Home.—American Social Guzette.

On Scil-Correction and Efficiency.

If your work is criticized never be content until you are satisfied that there is no fault on your part.

A story is told of a foreman of a jury who, on returning to the court, was asked by a supplied if he had servived at a veilber. He replied, "Oh, yes, I arrived at it an hour ago, but I cannot get any sense into these eleven hlockbeads." He did not realize that the eleven might he right and himself wrong. A Philadelphia minister often testifies that there came a time in his ministry, some years ago now, when he felt that his weit-tod-opeopie were in danger of becoming self-contred, if not selfals. So he determined to hunt round for something needy to hunt round for something needy to hunterest them in. He was a great friend of The Army's, and when he learned that we had a Nursery for slum children in the city he hastened to look it up. He soon had a band of bright young people interested in it; the first victions brought others. Then contributed \$15 a month to its working, besides other donations from the church. After a time this minister interested another in the Sum Work, and made over his part in it to him and his church, while he

"Not the least of the attractions of the streets of Victoria, these fine summer evenings, is The Salvation Army Band. The repertors of these enthusiastic musicians may not be very ambitious, but such "numbers" as they do attempt they play with good taste and much spir't. The improvement in the Band of late is a credit to its leader."

S'x new instruments have been ordered for the Victoria No. II. Band. Their numbers are swelling.

Wychwood Band has welcomed Banduman Ambrose, from Wellingham. Brother Nunn has also joined the Band. He is a considerable help as a solo cornet player. The Band recently gave an open-air festival. The crowd which listened to the Music, testified to the Band's increasing fame.

### CONCERNING CHINATOWN.

An Interesting Story of an Australian Opium Joint. (From All the World.)

T was the Chinese New T was the Chinese New
Year, and there had
been great doings
among the Ce'estials
that day. Their festivities had been carried to a high

pitch.
Quictness had at length settled
over the town, and it was long past
midnight when a loud knocking at
the frant door roused the two young
men who were in charge of the
local Corps of The Salvation Army.
Three Chinamen were there who

Three Chinamen were there who gesticulated frantically, and talked in an excited fashion, but all to little purpose.

"No cavee John" was all the satisfaction they could get from the Captalan, untill the thought occurred to him to send for an interpreter.

They returned shortly with the interpreter, who explained that they wanted to take the Officers with them to the Chinese camp to see a woman, who had taken part in the festivities that day and had fallen against a huge boulder, striking her head with such force that recovery appeared impossible.

Very soon the Captain and Lieutenant were following the three forms in the darkness down to the Chinese quarter.

The Captain knew the woman he was going to see, having met her a few weeks before, when, just after his arrival in the town, he was unbacking his things she had called at the Quarters.

"I always help Salvation Army Officers," ehe said, putting £1, as a donation towards the Work, in his hand. Then she gazed at a photograph which he was jest short to hang on the wall. It was a picture of the town in sponter Siric where had been form and "ared, and where his father and met a with the younger members of his faller, which he had been form and "ared, and where his father and met a with the younger members of his faller, which he was method, there."

an open-air meeting, a piece of paper
had been thrown into the ring, and
on it these words were written:

According to a German physician, it does people good to yawn, for it brings all the respiratory muscles of the chest and throat into action, and is, therefore, the hest and most natural means of strengthening them. He advises everybody to yawn as

deeply as possible, with arms outstretched, in order to change completely the air in the lungs and stimulate respiration. In many cases has forwed the practice to relieve the difficult: in swallowing and disturbance of the sense of hearing that accompany catarrh of the throat. The patient is induced to yawn through suggestion imitation of a preliminary exercise in deep breathing. Each treatment consists of from six to eight yawns, each followed by the operation of swallowing. It should be added, however, that it is quite possible for deep breathing to be overdone, particularly by persons with weak hearts, and it is at least open to question whether the obstacles to free respiration, which the yawning cure is alleged to remove, are not useful in preventing the entrance of germs and other foreign bodies.

Asking a Cable to the Surface By Means of the Grappler.

At both ends of the ship there are built projections which enable the child to be fed out clear by the hull of the velscel and which also allow of this free use of the grappler when a cable day to be brought to the shifteer. The grappler is a steel rod from which neval prompts projects when the cable has been located, the grappler is lowered and hadded across the track of the cable. When the grappler has found the cable it is drawn to the surface as here shown. Two men are shown elleging to the cable and freeling it from we eds and barancies.

Great European Floods.

Owing to severe floods in Europe, hundreds of people have been drowned. The newspapers say that terrible have has been wrought in Austra, and the Balkans and that 20,000 persons are homeless.

20,000 persons are home less.

In Switzerland twenty lives have been lost, and properly valued at two and a half millions of dollars has been swept away.

In Asiatic Turkey there is also considerable distress, the death roll in Armenia alone being over five hundred. The Western Euphrates and the Aras rivers are flooded and several villages have been swept away.

When reading of national disasters such as this, how petty do our personal troubles seem. In comparison, they are not worth thinking about. How thankful we should be to God thet we are spared such horrors. It should lead us to more carnestly devote oursalves to the service of those who suffer, and to pray for the affilted in all lands.

Preventing Consumption.

"In the fight against consumption, the white plague of modern days, we are all interested?" says Dr. Andrew Wilson, a British physician of note. He goes on to eay that me must adopt the motto, "Educate and sqitato." in our fight against the dread disease. Ha continues:

"We must educate the people in respect of the causes of disease, and other agencies should help in the great and good work of prolonging life, of saving pain and misery, to say nothing of the leas of money which all illness entirely made to the same and what we are doing to check the spread of typhoid fever by securing purity of water supplies, illustrate measures which yield a rich return in the shape of lessened mortulity. We isolate fever cases and try to prevent the spread of zymotic troubles, and so save risks of infection. Home for destitute boys. We gather from the London Social Gazette that it is the aim of Commissioner Sturgess and his assistants to make it a real home for the boys, and to eliminate as far as possible the institutional features.

Here it is intended more especially to provide the lad who began life in surroundings which gave him no chance to make out anything good, with an opportunity to start again before much barm is done; and as one of the most powerful factors in the formation of character—and it is character which is to make or mar the man—is the influence of home life. The Army's purpose in Sturge House is to supply that indispensable adjunct.

dispensable adjunct.

At the same time, the Home will have its distinct uses as a place of reception for runsway boys who, having found that the London of to-day is not quite the city it was 'n the days of Dick Whittington—or at any rate, the golden dream of their imagination—also discover they are on their beam-ends instead of at the famous mile-stone.

famous mile-stone.

It is some ten years ago since The Army definitely set liself to provide for destitute boys and those in danger of becoming criminals. Many of these had applied for help and, in sy'te of lack of facilities for doing the work, much good was accomplished; but it had long been foreseen that, to cope adequately with the problem these lade created, a building such as we have now secured would be needed.

CalA Corner of the Home, Showing the Class of Sore Benefited.

One of the first inquiries, received within a few hours of the decision to do something for such boys, was from the father of a last who had evidenced a bent towards wrong-doing. In response to the father's pitful appeal, the boy was taken in hand, and so well did he profit by the care and attention he received, that he now occupies a prominent postion as a musician in His Majesty's service. From this first case, the work developed until it was constituted a separate branch of Social effort, with this Home as the latest advance.

During the last eight years, 2.50 boys have passed through the care of the Boys Department, a third of whom were remaways from home. A number of olders, who were found to be quite friendless, were placed in employment, where they were often received as members of the families of their employers, and from both master and boy, cheering letters are continually reaching the Social Headquarters.

Many stories could be told of the lads who have been enached from three of infamy, into which, alasi evil people are only 100 easer to thrust them.

They had for highly thrown up their work, and, having hired bleycles for an hour or two, set off for Londen, which city they reached—peanliess. They were brosest enough to send the hired machines, back by railway—carrage forward—but were in a hopeless condition when they came under The Army's care. Further inquiries reached the fact that one had had a home, but the other was friendless.

# Notes and Reflections.

BY THE CHIEF OF THE STAFF.

#### ABOUT JUDGMENT

EN in all ages have agreed with men of toagreed with men of to-day in one thing—that in this life rewards are not proportionate to virtue, nor nunishments

That this is so, is self-evident. The relation between conduct and condit'on is unequal. All around us we may see that the good and worthy are oppressed, while the had and un-worthy flourish. So manifest is this, that it often appears as though there is no Judge taking account of human action, or that if there he one We judges unjustly. There is, however, another poss'blifty. It is this—that judgment is deferred to another life; that there is, in fact, "a judgment to come."

Sowing and reaping govern another with inexorable certainty, as to everything in this life except to doing good and doing evil. exception has proved a terrible trial to men of all kinds, savage and civil-ised, good and bad, since the world made. It has cut deep agonies in the human soul since first the human soul began to suffer. Out of hose agonies has strung a conviction even deeper still-so deep, inthat it as never really been shaken-that human existence does not end with the grave, but that in some other world, or in some other state, these inequalities will be recti-fied, the balance will be restored, and goodness will receive its fair rewhile sin will meet its proper pepaity.

Now, the Bible fully harmonises with reason and instinct in th's mat-It declares from heginning to end, with a consistency and confidence which are sublime, that just such a thing will happen as men's hearts have from the dawn of time hearts have from the dawn of time either desired or feared. The first of the prophets, Enoch, only seventh from Adam, foretold it. "Behold," he said, "the Lord cometh with ten thousands of His saints to evenue judgment upon all." And Paul, al-most the latest of the great prophet-ic voices, with equal definiteness cried aloud in most memorable words that "God bath appointed a day in the which he will judge the world in righteousness, by that man whom He had ordained, where of He has given assurance to all men in that He hath raised him from the dead." What reason and instinct demand, therefore, revelation has clearly fore-

Th's demand-we might almost call it a necessity—is equally evident when we look at some other facts of experience which are manifest in the idea of a future judgment of mankind.

How strong, for example, and how videspread is the conviction that injustice and fraud and oppression ought to be, nay, in some way will be, unimately discovered and punished! We often see evidence of this in the frantic efforts made to prevent them coming to the light. We see it still more evident is the off-repeated declarations of

wronged and the oppressed, spoken as from an instinctive impulse rather than with any deliberate thought, that the wrong will come home some day to their oppressors. "This will find you out:" "This will come back on you;" "Your turn will surely come"-these and a hundred other common exclamations make clear how deep is the conviction in thes who are wronged, especially if wronged in secret, that there is a day coming when their wrongs will be avenged.

The wronged wife suffering stlence; the children destroyed the'r innocence; the servant defraud-ed of wages rightly earned; the sick and the solitary cheated in their weakness; the widow and the father-less robbed of their due—do not these all seem to say in their misery, and do not we who know of their wrongs feel instinctively with them, "This ought to be set right; there ought to be a day of reckoning-a day of

Now, the Judgment described in the Word of God, meets this universal cry of the human spirit. According to that Word, it will be a day when the fire will try every man's work of what sort it is, and will bring to light the hidden things of darkness, and will make manifest the counsels of the heart. The Judge cometh, said the old Prophet, to convince all that are ungodly of all their ungodly deeds which they have com-Then the mean man shall he brought down, and the m'shty man shall be exalted in judgment, and the dead shall be judged out of those things which are written in the books, according to their deeds. He will repay fury to His adversaries in that day, according to their deserts. According to the fruit of their doing, saith the Lord, will I recompense saith the Lord, will them, and they shall know that I am

Look also at the universal sent-ment as to hidden wrong. Who is there that knows of undiscovered crime who does not feel, often with out being able in any way to account for the strength of that feeling, that the wrong-doer ought to be revealed. The murderer—he who struck the fatal blow and get away; the thef -he who stole the portion of the ignorant, or betrayed the trust of the dead and yet avoided discovery; the seducer-be who deceived and robbed and then lied so as to escape and leave his victim to despair -who can think of these and deeds and others like them, without a burn ng consciousness that somehow, somewhere, such abom nations ought to be uncovered and the guilly brought to the light of day and con-fronted with their sin? Nay, is there not in the breast of every one of ug a positive anticipation, an earnest expectation, that sooner or later the secret will out, and the guilty will he brought forth?

is it not almost equally a courtetion that unknown mod ought come-how to be rewarded? The world has had innumerable examples of uncellish devotion to the well-being of

others which have found no reward in this life. Health and wealth and home and hope and life itself have all been laid down in generous or dutiful silence for the sake of others. Is all this to be buried in oblivion for some, while trumpeted forth for others? Is the service of the humble and the patient to be for for others? ever h'dden or forgotten, while the service of the pushful and selfish is praised and exalted? Such a notion is repugnant to our very nature. It offends our sense of what is just. Whether we are good or bad, something in us demands that the hidden good in man should find some recog-

nition at last.

Now the pictures in which the
Bible describes the Great Assize meet with remarkable exactitude these very demands. That great day is declared to be a day of God, when the Ancieut of Days shall sit whose garment is white as snow, His throne like a fiery flame; when God will bring every work into judgment, with every secret thing, whether it be good or evil; when the Son of Man ghall send forth His angels and gather together first the tares and then the wheat, and reward every man according to his work. In that God shall judge the secrets of men by Jesus Christ, for there is nothing covered, said Jesus, that shall not be revealed, neither hid which shall not be made known. Whatso ever was spoken in darkness shall be heard in the light, and that which was spoken in the car shall be proclaimed upon the housetops.

Again I say, what buman instinct and reason combined in buman ex-perience seem so definitely to demand, Divine revelation, with equal clearness and with awful defin to ness, undoubtedly foretells.

It is impossible to overestimate the power of this truth as a motive for all that is holy and sincere in those who receive it. We see how it affected the Apostles. Opposed by all the forces of heathendem, and standing a tiny handful of simple souls against a world inforiated by their testimony, they ceaselessly ap-pealed to it. On almost every page of their writings, especially of St. Paul's we see that they actually live in the presence of the Great Pay. The majesty of it 's ever be-fore them. It quickens their con-sciences. Their work is carried on as by men whose work will be tried by its fires. It is the judgment by which they are to be judged. The light from that Throne is to be the arching light in which their lives

will be reviewed.

It is ever so. As with them. so it has been since. So it is now. The great fact of our respons billty for our own actions and of our final accountability to Almighty Ged, lifts the whole life we live up from the level of the cattle and the flies on to the highway of men made in the image of God, coming forth, from charged with th eaccomplishments of His purposes, and returning the deeds we have done.

#### CANADIAN IMMIGRATION.

The responsibility that rests upon every Salvationist to give a welcome to the stranger who comes within our gates, should ever be present with us. It is not only the duty of those actively engaged in our Immigration Department, to so extend courtesy and kindliness to the new but it is the bounden duty of all Salvationists to welcome and as sist those who east in their lot with this nation, so that not only will the ind'viduals the sooner become pro-ducers and contributers to the country's weal, but by so do'ng will thus prevent individual suffering.

We cannot speak too highly of the devotion to the cause of the newcomer on the part of our Immigration Brigade, or of the success that at-tends their efforts. Still, abundant opportunities for doing good in this direction, remain for the comrades who are not officially connected with the Immigration Work.

We observe that the railway officials figure out that immigration into Canada this season, since January 1st, from Europe, is almost 112,000 people, which is considerably more than for the whole of last year. Our experience teaches us more and more, the wisdom shown in the Government's regulations concorning new-comers having either specified amount of money, needful tido them over a week or two iu this new land, or a definite situation awalting them on farms or in domestic service; and we have no sympathy whatever, with the attempt to throw wide open the gate for an indiscriminate influx of population.
As already stated, the stream of general immigration is rapidly increasing in volume, but we note with great satisfaction, the improved class of people who come to Canada-Wo congratulate all concerned.

Whatever we as Salvationists may in assisting the new-comer, let us remember that it is righteousness exalteth a nation. It is up to us to do our best to bring this about.

## The Dufferin Grove Camp Meeting Campaign. HAS A SPLENDID BEGINNING.

#### Col. and Mrs. with Headquarters' Staff and the Temple Band Conduct the First Week-end.

THE YOUNG PEOPLE'S BAND. THE FINANCIAL DEPARTMENT. AND WEST TORONTO CORPS HAVE GOOD MEETINGS.

Saturday Night,

HE Dufferin Grove Camp Meetings for 1910, be-gan under the most fav-ourable amprices. The weather was all that

could be desired-brilliant synshine tempered with a delightful breeze. The Camp is laid out pretty much as In past years. That is, a large tent, capable of accommodating six hundred persons, in which to hold meetings; two sma'ler tents for the Cadets; a number of small tents, and a lumber-built kitchea.

The opening meeting was conducted by Colonel and Mrs , Mapp, who were assisted by the Divisional Communder, a number of the Headquarters' Staff, and the Territor at

The crowd was a record one for an opening night, and the spacious teut was practically full.

After the openlug exercises, the Colonel read the 67th Psalm, and aptly commenting on the same, remarked that we who were present, had reason to "praise God for his saving health" among us, as he remembered that last year he had been announced to open the Camp meeting Campaign, but instead of so, he had to journey to New York. to take part in the great memorial meeting that was held in that city in connection with the sudden death Booth-Heliberg,

but those present had been spared to mble together heneath the pines of Dufferin Grove, and he earnest!v hoped that the Psalm he had read, would be the prayer of each one— and cause His faco to shine upon us." "God, be merciful unto us and bless us;

A feature of this meeting was the estimonies of representatives from the city Corps. For, in order to show the'r sympathy with the objects of the Campaign, the Corps bad sent a number of delegates. There were addresses by Adjutant Peacock, who is a Soldler of Lippincott; Brother Collier, from Dovercourt; Brigadier Bond, a Soldier of Old No. I.; and others. Those made reference to the blessings that the Camp Seetings had proved to the various Corps in the past, and the desire that the nt should eclipse all others for blessing.

There was plenty of variety in that meeting. The Staff Band played stirring marches, and the Male Voice Cho'r sang tuneful melodies that reached the heart. It may be described as a sample meeting, for on the Monday night, Lieut. Colonel Southall and Ensign St'tt, with the Young People's Band, would take the platform, so as a 'taster" of the good things to come, Bandboy Reggie Simco rendered a violin solo, with a

plano accompan ment by Bandboy Ja! Mapp. On another night durinthe coming week the Training College Cadets were to take the meeting, so Brigadier Taylor led them in a song-the singing resembled the vocality of a combination of black-birds and linnets. The men's Social Work was to be g'ven an opportunity during the Campaign, so Staff-Captain Fraser told a couple of thrilling stories illustrative of Pr son-Gate Work. Holiness is to be given a great prominence in this series of Camp meetings, thus, Major S mee an able exponent of the giorious doctrine of full salvation, gave a personal holiness testimony. course, the saving of souls is the great end of everything in this Campalen so Lieut-Colonel Howell gave a salvation sermonette, which was so convicting that almost immediately after its conclus'on, two person; held up their hands, being desirous of having the prayers of God's people, and, in the course of the prayer meeting, three souls came to God for pardon.

Sunday Morning.

Sunday was a brillantly fine day, and those who lived in the neigh-bourhood of Dufferin Grove, must have felt a sanctifring influence, as the magnificent Temple Band filled the a'r with the grand old strains of "Sovereignty," "Darweils," and other tunes so wedded to the gems of Christ'an bymnology. Each service was preceded by an openair meeting, held beneath the pines, and the villa-dwellers who fringe the grove must have had hallowed associa-

Mrs. Mapp read for the lesson, a portion of the third chapter of Pro-verbs, and the Colonel based his adupon Christian confidence as described in these words, "The Lord shall be thy confidence, and shall keep thy foot from being taken." The Colonel, in a very thoughtful address, gave some str.king illustrations of this thought, and one could not but bless the Lord for the shaken confidence He has given to our dear General. As all will know. The General bas plenty of tribula t'ons, but when the news came to him of the tragic death of the Consul in the American train wreck, the dear old man exclaimed. "Another cup full of sorrow!" but declared that his confidence in the love and v. adom of God was unmoved; and so, when the physicians declared that his eye must be taken out our police (Continued on page 11.)

The boom of the buge gong coused a rush for baggage, and many hurrled good-byes: then the Winning Band played "God be with you till we meat again," and the train steamed out am'd cheers and waving of handker-chiefs. The Winnipeg Campa'gn was over.

A four hundred mile Eastern run, and Fort William was reached at noon, Tuesday, June 14th. Great excitement, was everywhere manifest over the visit of the Commissioner and Band. Mayor Pellier came down to the station and gave them a hearty welcome. An immense crowd surged around the Band as "Chalk Farm" was played. Spontaneous applause, whenever the Band or Cho'r gave selections, had its commence-ment among the motley crowd on that platform, and it characterised the whole day's meetings and march-es. An Army Band is certainly Fort William's need,

Music has perhaps a greater charm for the Westerner, away on the prairie than for the Easterner in populous districts; as instance the populous districts; as instance the Band's festival given in the Arena Rink, Nearly a thousand persons were present. Dr. Smiler, M. P.P., took the chair. He said, to his own credit that he had never hesitated to take sides with The Army and pre-side at any of its meetings. The "All Nations" selection, he thought, would interest everybody, because no fewer than eighteen different languages were spoken in the twin cities. His forecast was correct, judging by the annlause.

HOW THEY BUILT THE NEW CITABEL

The Story in Rhyme.

Come, all you War Cry readers, and listen for a while; I want to tell something about The Army on you semething about The Army on Bell Isle: ten years age, by Gully Pond, The Army opened fire, just in an old black-felted shack, which a friend to us did hire,

The next we did was buy some to build a Barracks on; and Captain Cumm're did his best soon we had it done, then Captain French, he came along, a Quarters to erect; and with Lieutenaut Woodland, they did it very quick.

But soon our Barracks was too small, our stadiouse to seat; two hun-dred dollars Captain raised, a larger one to get. Then Ensign Higdon, er, casse — Captain Canning
ad hand— and just upon the

hillitop, they bought a piece of land. They worked with all the pluck of men, a Citadel to erect; some kind friends gave small money, and others checue. ARG ROW. credit still is due to these hard-work ing men, who spend their time and nts, God's Kingdom to extend.

Citadel is opened now-it's done in highest style; and everyone will say that it's a credit to Bell Isle. Our people they feel proud of it, Hendquarters thinks it grand, and I, for my part, say, it is the best in Newfoundland.-Sergeant Richard Brigden.

This march can be num-bered amnog the best Army compositions.

The Chief Secretary, who was in charge of the meeting, then introduced Adjutant Sims, "in h's new role," in other words, as Staff-Captaln Sime! The Staff-Captain, who was loudly cheered, said that he was very happy in his work, as a Social Department Officer, and then told briefly the story of a man who came to him practically an outcast, and who to-day is in charge of an Army Institution himself!

Cantain Martin, who is leaving T. H. Q., for the West, where he do special financial work for several weeks, gave his personal testimony, and then the Band Quartette sang, "The Lifeboat." A few words from Capta'n Jones, of Hamilton, and Band played "Battle Strains." Major Creighton read the 150th Psalm Handsman F. Braine gave a vocal solo, and Brigadler Morris outlined in an few words, what the Staff Band had seen and done on its trip to Winnipeg.

Sunday Evening.

The great tent was crowded long before the time of meeting, and an immense audience surged within earshot outside for the last meeting of day. There was a tense feeling of expectancy in the air, an electrically charged atmosphere-a condition that was rendered more so, by the singing and playing of the open ing song given out by Lieut. Colonel Howell, and sung to the tune of "Blue Relis of Scotland." Colonel Claskin's fervid prayer also helped the meeting. The Male Quasisang, "It is well with my soul," Male Quartette feeling and effect, after which Brigadler Bond read that portion of the Apocalypse in which the Seer of Patmos, speaking of the Kingdom of Christ declares: "The Spirit and the bride say come, and let h'm that heareth say come, and let him that is athirst come. And whosoever will let him take the water of life

A song by Mrs. Ensign Hanagan, and a selection by the Temple Band, brought us to the Chief Secretary's address, which was a logical and force ful exposition of the verse quoted.
The Colonel set out to show some

of the dealings of Almighty God with the soul. How the Spirit works at times throug : mundane happenings, human catastrophes, to bring men and women to repentance, giving as an example, the historic wreck of the "Larchmont," when Salvationists sang bymns, and led men and women to Christ before the ley waters sent their souls to Him who made them.

The second force for the evangelisation of the world was the Bride, represented by the Church, and the third force mentioned, that of human test mony-'let them that heareth saw come." These aspects of truth were dealt with in a powerful manner, and conviction fructified in the conversion of seven souls, making twelve for the day.

The meetings were of a very structive character, and the crowde taking into consideration the exceedingly hot day were very satisfactory... The Temple Band, under Ensign Han agan, by the fine playing and Seldierly conduct of the Randsmen, contributed greatly to the enjoyment and blessing of the day. Another item should not be lost sight of, the backed seats-which formerly stood in the Temple-are now util-ised in seating the tent, and form a most comfortable seat compared to the backless planks of other years. YOUNG PEOPLE'S NIGHT AT DUFFERIN GROVE.

A splendid congregation gathered the Camp on Monday, when Lieut-Colonel Southall, assisted by Captain Palmer, and the T. Y. P. Band conducted the meeting.

It was Young People's Night, and everyone seemed to catch the Spirit of the occasion for there was a posiceable buoyancy of feeling. The playing of the Band heightened impression, for it was lively and quick, and seemingly expressed the hopefulness and high spirits of youth. This was referred to by Colonel Southall in his introductory remarks. after the Band had played a stirring me'ody

Then Bandboy Reggle Simco played on his violin, accompanied by Major Simco on the plane. He played wery sweetly, some old favourites, ending up with "Home, Sweet, Home," and that the audience was greatly pleased with it, was evidenced by the hearty applause."

A powerful address was then given by the Colonel. Very graphically be pictured the state of chaos into which society would sink if sin had full sway. He then appealed to his unconverted heaters to escape from the thraidom of sin, and seek the cleansing Blood. During the subsequent prayer-meeting, one young man came to the mercy scat.

THE FINANCIAL SECRETARY'S MIGHT.

On Tuesday night the Pinancial Secretary, Brigadier Policy, led the meet us. 11 the Camp. He was as-sisted by his office Staff and the West Toronto Officers and Band.

A splendid congregation gathered the tent and the meet bright and lively. Music and some figured largely on the programme; the-aim of the Brigadier being to show what a power for good these may be when consecrated to the service of And he had some excellent. material to work on, for a gooding array of talent was on the platform.

After Adjutant Cornish and Major-Simco had prayed, the Band played: a selection. The Officers of West Toronto, Captains Andrews and Pease, then each had something tosav. and gave two strategy salvations talks. Captain Carter sang a sons, accompanying himself on a guitare Captain Murdoch played a cornet sele, accompanies by Captain Nock on the piano; and Captain Ernest Pugmire played a cuphonium soio. Captain Ernest Mrs.Ensign Hanagan was another soloist, accompanying herself on the flutina. Captain Malone also sang at s , and Staff-Captain Stobbs reads the Bible lesson.

The Brigadier gave a straight and simple salvation address, urging simners to seek the Saviour.

The prayer meeting was led by Major Cameron, and prayer was answered, when a young man waiked voluntarily out to the mercy-scattand sought Christ.

#### Sweden.

An instance, showing how the local authorities appreciate The Army's work in Sweden, reaches us from Hensingborg. It is connected with the celebrations at Skape, in memory of a great general who, in the last war with Denmark, successfully defended that part of the country.

During the festivities, a sum of money was collected for the poor, 1,990 kroner of which was allocated to the Slum Officers in Helsingbors. Over sixty needy families participated in the distribution, while o hirs were helped with food bought with the surplus money.

In the "Gibraltar Chronicle," which is the official gazette, published under the supervision of the Govern-ment authorities, Staff-Captain Leib is mentioned as being one of the "clergy" present at the Memorial Service for King Edward, which was held at the Cathedril.

A New-Made Town.

The buildings in which the various processes connected with the paper-making are carried out cover an area of about three acres. Around these has grown up the town of Grand Falls, named from its a tuation in relation to the river. The Harmsworths have not been content with transforming this princeval wilderness into a greas industrial centre. They are making every effort to so direct the growth of the town that it shall be a model one to every respect. Already the shacks in which the lumbermen cand men on the construction works were first housed have been demoi-sished, and in their places stand hundreds of nest cottages erected by the company. Each cottage is surrounded by its own grounds and fronts on a wide, well built street, whereon the explectric lights shed cheer by night.

The water supply is well-filtered, and there is an excellent method of sewage disposat, both planned by experts brought over from England for the purpose. The chief business place in the town is a general store maintained by the company, the profits of which are devoted to such purposes the townspeople successful the supplemental townspeople successful the supplemental basis, but the generosity of the Northcliffes, also heen built, and ample provision made for education and recreation as witness the substantial, well-kept school and club-stantial, well-kept school and club-school and club-sc

Tunes-Helmsley, 167; He is bringing, 166.

Hear the countless millions groaning 'Neath their load of sin and

Neath their load of an and
See them bound with chains so galling,
Who to rescue them will go?
Are you ready?
Now, for Jesus' sake, to go?

Lo! a mighty host advancing, Sinners shall the Saviour know; God's own army, hell defeating, We will to the rescue go. I am ready!

Now for Jesus' sake, to go.

Tune.-At the cross, 208. Tune.—At the cross, 208.

When my heart was so hard
That I ne'er would regard
The salvation held up to my sight,
To the cross when I came
In my darkness and shame,
It was there where I first saw the
light.

Chorus.
'At the cross, at the cross, where I first saw the light.

For my blindness I thought
That no power could have wrought
Such a marvel of wonder and might;
But 'twas done, for I felt,
At the cross as I knelt,
That my darkness was turned into
light,

Tune-Never run away, 52, Eb & F; Song-Book, No. 611. 3 To save the world is our desire, For enemies we pray!
We'll never tire, we'll stand the fire, And never, never run away.

Sin's greatest strongholds we'll attack, Our Capta'n we'll obey: The foo shall yet be driven back, We'll never, never run away.

Onward we'll march, with Flag un-

furled,
Jesus shall have the sway;
Like Him who died to save the world,
We'll rever, never run away.

Tunes - Monmouth, 9, Eb & G; Old hundreth, 12; Song-Book, No. 866 A Jesus shall reign where'er the sun
Doth his successive fourners run;
His kingdom stretch from shore to
shore,
Till suns shall rise and set no more.

Blessings abound where'er He re'gns; The prisoner leaps to lose his chains; The weary find eternal rest; And all the sons of want are blest.

Let every creature rise and bring its grateful honours to our King; Angels descend with songs again, And earth prolong the joyful strain.
